

### **Immunisations for young people website article**

The adolescent vaccination programme offers the best protection for teenagers as they start their journey into adulthood. This winter and spring term, Vaccination UK will be attending schools to administer two vaccinations, the 3 in 1 teenage booster which is given to boost protection against 3 separate diseases: tetanus, diphtheria and polio, and the Meningococcal (Men ACWY) vaccination which helps protect young people against four types of meningococcal disease which can cause both meningitis and septicaemia.

You can consent online now by clicking this link:

<https://midlands.schoolvaccination.uk/dtp/2023/wolverhampton>. Alternatively, if you are giving consent using a paper consent form, please make sure to return this to the school office/class teacher. Consent forms need to be completed or returned no later than 5 working days before the clinic on [add date]. If you have any queries or would like to provide verbal consent, please contact Vaccination UK's School Vaccination Team on 01902 200077 or e-mail [wolverhampton@v-uk.co.uk](mailto:wolverhampton@v-uk.co.uk).

Further information on immunisations for young people, including frequently asked questions can be found at [Immunisations for young people - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/immunisations-for-young-people). Additional resources about immunisations can be enjoyed at <https://bugbusterkids.co.uk/index.html>.
